LES PAPETERIES DE VIZILLE
VIZILLE PAPER MILLS
PAPERS FOR PUBLISHING

UNE ENTREPRISE
DU GROUPE 

Our publishing papers were one of the first product ranges to be developed at Papeteries de Vizille and 400 years experience has put us in an excellent position. Still today these qualities have a fine reputation amongst publishers.

Papeteries de Vizille manufacture a wide range of paper products for printing applications. **Woodfree or wood containing**, these qualities combine great printability and excellent runability. It is available, on request, **PEFC or FSC® certified**.

Their even sheet formation, high opacity and the guarantee of consistent caliper ensure the quality of your finished products.

Vizille papers meet all your standards and are perfectly integrated into an evolving printing process, **guaranteeing production-line quality and exceptional results for long and short print runs, right through to books-on-demand.**

Traditional printing :

Offset

New digital printing technologies :

Laser – Inkjet
